

嘉利國際控股有限公司

Karrie International Holdings Limited

*We had held our 8<sup>th</sup> “Tea-Break with Individual Investors” on 22 July 2006. Though industrials stocks are not the darlings for investors recently, we still received about 30 participants. Management tried their best to answer all questions from the floor as usual.*

*Some investors even stayed with us for a sharing session at the table until 5:00pm. We received encouragements, supports and advices from the tea break, surprisingly one of them even send us letter. We would like to share it with you.*

#### **Letter from an individual investor**

28 July 2006

Dear Winnie,

Just a small note to thank you for your invitation to a “tea gathering” which was held last Saturday.

I must say that this event was a successful one. What has again inspired me is the way that Karrie operates. Your Management team has demonstrated that they can “walk the talk”.

Through the Q and A session, I shared a lot of wisdom from the answers that were provided by members of your management team. A passion for excellence is the spirit that I can perceive from my contacts with the Karrie people.

In particular, I shared the expression from one of the audiences who initiated to send a tribute to your Chairman Mr. C. F. Ho for his practiced full delegation to various functional committees to steer the way forward of Karrie. We all understand this is not easy, especially when Karrie is mainly a family owned company.

Please also send my regard to your Mr. Ho, though I have not had the chance to meet him yet.

Wish Karrie every success.

Yours faithfully,  
xx Poon
